

Pandemic Compliance Advisors

Proof Productions, Inc.

Proof Productions, Inc. staffs nationally certified Pandemic Compliance Advisors (PCA) to consult with and advise live event producers/production managers on the safety of events. These PCAs and support staff are well-rounded entertainment professionals well versed in the specific needs of live events.

Role of a Pandemic Compliance Advisor

PCA is a role specifically for live events certified through Health Education Services to provide/consult on the following and more:

- Venue Compliance
- Safety Supplies & PPE
- Sanitization Schedules
- Education of Staff
- Location Risk
- Health Screening Protocols
- Onsite Rules & Regulations
- Exposure Protocols
- Contact Tracing Protocols

This role follows local, state, and federal guidelines to offer an independent voice on the safety of a production, event, or large gathering. PCAs have a background in the entertainment industry, making them keenly aware of the demands. This role is described in the Return to Work Agreement penned in September 2020 by the Directors Guild of America (DGA), Screen Actors Guild-American Federation of Television and Radio Artists (SAG-AFTRA), International Alliance of Theatrical Stage Employees (IATSE), and Teamsters/Basic Crafts for the return of the film industry. As live events join film in returning to work, protocols must be determined early to ensure the safety of cast, crew, staff, and patrons.
